REPORT

ON THE

EXTERNAL TRADE OF BENGAL

WITH

NEPAL, SIKKIM, AND BHUTAN,

FOR THE YEAR 1882-83.

UTTARPARAH PUBLIC LIBRARY

As in the previous four years, the collection of the statistics of the external trade of Bengal with Nepal, Sikkim, and Bhutan was limited to the registration of the traffic passing along all the important trade routes, of which there are 32 on the northern frontier of Bengal between the districts of Chumparun and Julpigoree.

2. The total value of such trade registered during 1882-83, as compared with the figures of the preceding two years, was as follows :—

	Imports into Bengal.				Exports from Bengal.		
	1880-81.	1881-82.	1882-83.		1880-81.	1881-82.	1882-83.
	Rs.	Rs.	Rs.		Rs.	Rs.	Rs.
From Nepal	1,03,17,915	75,42,743	75,60,604	To Nepal	56,15,443	55,36,668	55,57,525
„ Sikkim	1,67,960	1,67,533	2,00,148	„ Sikkim	80,898	86,011	1,16,294
„ Bhutan	2,26,622	1,23,048	1,11,442	„ Bhutan	1,96,947	1,05,168	86,693
Total	1,07,12,497	78,33,324	78,72,194	Total ...	58,93,288	57,27,847	57,60,512

According to the returns, the excess of imports of merchandize over exports for the year 1882-83 was Rs. 21,11,682, against Rs. 21,05,477 in 1881-82, and Rs. 48,19,209 in 1880-81.

3. These figures represent the traffic to and from stations in Bengal only. The amount of traffic with other provinces passing through the trade routes in Bengal, was as follows:—

Year.	Imports into other provinces from Nepal.	Exports from other provinces to Nepal.
	Rs.	Rs.
1880-81	... 28,731	3,99,170
1881-82	... 4,38,040	5,63,732
1882-82	... 4,55,050	4,29,117

4. The combined total of these two sections of the registered trade during the past three years is shown below :—

Year.	Imports into Bengal.	Exports from Bengal.	Total.
	Rs.	Rs.	Rs.
1880-81	1,07,41,228	62,92,458	1,70,33,686
1881-82	82,71,364	62,91,579	1,45,62,943
1882-83	83,27,244	61,89,629	1,45,16,873

5. The gross value of the traffic registered during the past year thus shows a trifling decrease of Rs. 46,070 as compared with 1881-82. In the import trade, there is an increase amounting to ·68 per cent, but the exports indicate a falling off of 1·62 per cent. Of the articles imported from Nepal, there has, however, been a large increase in the traffic in turmeric, food grains, hides, skins, ghee, linseed, timber, and specie, while amongst the articles of export, the decrease is conspicuous under Indian twist, and piece-goods, both European and Indian, but it is made up by a corresponding increase under raw cotton, and manufactured silk and woollen goods. The export of brass and copper and their manufactures has also been large, against a marked falling off in safflower, jewellery, other metals, paints and colours, and betelnuts. The fluctuation of traffic in all the important commodities will be briefly considered further on in this report.

Imposts levied by the Nepalese authorities.

6. The information furnished by the different local officers regarding the imposts levied by the Nepalese authorities on the traders after they leave or before they enter British territory during the past official year, is summarized as follows. The Collector of Chumparun writes :—

"As regards exports from Nepal, no taxes are levied on the exports of merchandize by Nepalese subjects. British subjects engaged in the grain trade with Nepal have to pay an anna in the rupee, or 6¼ per cent on the value of paddy and 15 per cent on the value of oilseeds brought away by river. The rates for the same kinds of produce when brought away by land are much the same: 10 annas per cart load for dhan, and Rs. 1-8 per cart-load for oilseeds. But it is reported that these duties are not levied with the authority of the Nepalese Government. No special tax is levied on timber exported. A royalty of 25 per cent on its value is paid for every tree cut down whether by a Nepalese or by a British subject, and no further tax is levied on the export from Nepal into British territory. The annexed Table A gives the rates of duty levied on all the principal articles of commerce exported from Nepal into British territory, so far as they can be ascertained.

"Statement B gives the imposts levied on the different classes of goods imported into Nepal from British territory. Certain reductions of these taxes are made in favour of a class of merchants in Nepal known as the *Battis Kotthi* merchants, but who these *Battis Kotthi* merchants are no one is able to say.

"No preference seems to be given to one route over another on account of variation in the incidence of taxation along the different routes. The lighter and more valuable classes of goods are sent to Nepal by the Segowlee route as a matter of convenience, because it is the most direct road to the frontier, and is now bridged throughout its length. Heavy goods are sent up by river, and country produce is brought down from Nepal either by river or by the Thori route, as it suits the convenience of exporters."

Statement A showing the duties levied on goods exported from Nepal into British territory.

Ornaments, jewels, pearls, silver and gold vessels.	1 to 2 per cent *ad valorem*.	
Tobacco and gur ...	Rs. 1-2 per maund.	

In 1881-82, the Collector stated that he had ascertained that certain changes had been made in the taxes leviable on imports and exports, but that the exact nature of these changes was not then known. The foregoing tables for 1882-83, however, show that the rates of imposts have been revised in respect of the following staples of traffic:—

Names of articles.	Rates of imposts levied in 1880-81 and 1881-82.	Rates of imposts levied in 1882-83.
EXPORTS FROM NEPAL.		
British coin	2½ per cent *ad valorem*	1½ to 2½ per cent *ad valorem*.
IMPORTS TO NEPAL.		
Indigo	15 per cent and Rs. 1-2 per maund	One-tenth of the value and Rs. 1-2 per maund.
Cotton	Ditto ,, 2-2 ,, ...	15½ per cent *ad valorem* and Rs. 2-2 per maund.
Ornaments, jewels, pearls, silver, and gold vessels.	1½ per cent *ad valorem*	1 to 2 per cent *ad valorem*.

The duty levied per pony-load at Hethowra, shown in statement B, is put down at 8 pice, against 17 pice in the two previous years. The duty levied at Bichakhor in 1882-83 is said to have been at the rate of 48 dhebuas (about seven annas) for every 12 pony-loads from wholesale dealers, and 8 dhebuas (one and one third annas) per pony-load from retail dealers; but in the two previous years the rate given was 14 pice per pony-load.

7. Along the Mozufferpore and Durbhunga frontiers it would appear that duty is generally levied by the load, at rates varying from one anna to nine pice for carts, two pice to one anna for bullocks, and one pice to one anna for coolies. The rate thus levied on exports is called *khurchapi* and that on imports *lag*. Dealers are allowed to compound for *khurchapi* by a payment of 8 annas a year on each cart or bullock. Special export duties are levied on cattle, varying from one anna per head for goats to 12 annas per head for cart bullocks. *Sayer* is levied, in addition to *lag*, on imports at two pice in the rupee *ad valorem*. Grain, though subject to export duty, can be imported free.

9. The Collector of Bhagulpore furnishes the two schedules, published below, showing the charges made on the frontier of that district:—

"The scale of imports into Nepal is as follows:—

	Rs.	A.	P.

Earthen pots, per cent	0	0	6
Grass, per cart-load	0	1	0

"The Nepal Government maintains no regular custom-house for the levying of these duties, which are realized on the farming system."

10. The Deputy Commissioner of Darjeeling writes:—

"The subjoined statement shows the duties levied by the Nepal Government and by Thibet on imports and exports.

"Formerly, the Nepalese Government did not levy any duty on articles imported into Nepal, but last year they have begun this in accordance, I believe, with their practice at other points on the frontier.

"No duty was levied by the Sikkim officials during the past year, but a proposal has been made by the Maharajah to reintroduce this.

"At Phari, in Thibet, duties were levied on traders on leaving or entering that country

"Bhutan levies no duties."

11. The Deputy Commissioner of Julpigoree reports that, "so far as has been ascertained, no duties or imposts are levied on traders after they leave or before they enter the British territory from Bhutan."

12. From the foregoing statements it will be observed that the rates of duty at different points on the frontier would seem to vary considerably. Whether there is really such a divergence as the local reports would indicate is, however, perhaps open to question. A special endeavour will now be made to ascertain precisely what duties are really levied. Each of the local officers concerned will be furnished with copies of the reports submitted by the others, and will be asked to institute careful personal enquiries and report the result. Their attention will also be directed to the fluctuations in the imports and exports at the different registering posts, and they will be desired to consider how far these are the results of variations in the rates of duty. Altogether it is hoped that the next Annual Report will present a less fragmentary review of this subject than is now submitted.

Import of untaxed foreign salt from trans-Himalayan sources.

13. The total quantity of untaxed foreign salt imported into British territory from trans-Himalayan sources amounted to 1,520 maunds 23 seers, against 1,932 maunds 8 seers 8 chittacks in 1881-82, and 2,374 maunds 33 seers 8 chittacks in 1880-81, as shown in the following statement:—

	1880-81.	1881-82.	1882-83.
	Mds. s. c.	Mds. s. c.	Mds. s. c.
Darjeeling	2,268 13 0	1,897 2 0	1,470 34 0
Julpigoree	106 20 8	34 31 0	49 29 0
Bhagulpore	.....	0 15 8	.. ...
Total ...	2 374 33 8	1,932 8 8	1,520 23 0

The imports in the Darjeeling district show a steady falling off of from 2,268 maunds 13 seers in 1880-81 to 1,897 maunds 2 seers in 1881-82, and 1,470 maunds 34 seers in 1882-83; and the Deputy Commissioner writes that the decrease is only in accordance with the anticipation expressed by him in his previous year's report as to the result of the reduction of duty on sea-borne salt, and that the facilities for transport afforded by the Darjeeling-Himalayan Railway will doubtless result in a still further decrease in the importation of this salt. The different places from which the supply was derived during the past year is shown in the following table:—

Statement showing the import of untaxed salt into British India from trans-Himalayan sources during 1882-83.

Name of registering station.	Quantity imported during 1882-83.	From what places imported.
	Mds. s.	
Goompahar	379 27	From Balochongola in Nepal.
Kurjulia	310 12	Principally from Hongog, Hatia, and Baloosoom in Nepal.
Rungeet	89 35	From Sikkim.
Pheydong	691 0	Principally from Thibet; a small quantity from minor places in Sikkim and Bhutan.
Total ...	1,470 34	

The quantity of untaxed salt carried to Julpigoree, however, showed an increase of 14 maunds 38 seers on the figures of 1881-82, but a large decrease of 56 maunds 31 seers 8 chittacks compared with 1880-81. The local officer remarks that there does not appear to be any special reason to account for these fluctuations, but from what he has lately reported to Government in connection with the import lac trade with Bhutan, he has very little faith in the returns of the traffic mohurirs.

TRADE OF BENGAL WITH NEPAL.

14. During the year under review there were altogether 27 frontier posts on all the important routes of traffic for the registration of the trade of Bengal with Nepal. The total value of this trade registered during the past three years was as follows:—

	Imports from Nepal.	Exports to Nepal	Grand total of value
	Rs.	Rs.	Rs
1880-81	1,03,17 915	56,15,143	1,59,33,358
1881-82	75,12,713	55,36,668	1,30,79,411
1882-83	75,60,604	55,57,525	1,31,18,129

The foregoing statement shows an advance of ·24 per cent in the imports, and of ·38 per cent in the exports, as compared with 1881-82. The most noticeable features in the trade of the year are an increase under rice (81,684 maunds), paddy (1,16,378 maunds), rain crops (54,065 maunds), hides of cattle (32,509 pieces), linseed (66,830 maunds), silk, manufactured (Rs. 58,748 in value), timber (1,07,758 maunds), and manufactured woollen goods (Rs. 1,13,388); and a decrease under cotton piece-goods (Rs. 1,37,584), provisions, other than ghee, (35,227 maunds), fibres, raw, other than jute (10,853 maunds), mustard-seed (10,563 maunds), and spices (8,243 maunds).

15. The following statement shows the total trade, import and export, in each of the principal staples of traffic during the past three years. The figures shown here, however, represent the net traffic between Bengal and Nepal, after deducting such portion of it as passed into and from other provinces through Bengal:—

16. *Cattle.*—The cattle trade showed a decrease of 17·19 per cent on the returns of 1881-82, and of 8·65 per cent on those of 1880-81. The number imported into Bengal is said to have been 18,358 against 21,318 head in 1881-82, and 16,972 head in 1880-81.

17. *Cotton, raw.*—The total traffic under this head rose from 7,494 maunds in 1881-82 to 9,767 maunds in 1882-83, showing an increase of 30·33 per cent. The quantity of raw cotton sent to Nepal from British territory was 8,154 maunds, against 5,623 maunds in 1881-82, and 5,721 maunds in 1880-81.

18. *Cotton Piece-goods.*—There has been a slight decrease in the trade in European piece-goods, of which Rs. 18,19,592 worth were exported to Nepal during 1882-83, against Rs. 18,34,818 worth in 1881-82. The total value of unsaleable fabrics returned to the British territory, however, was very much less, amounting to only Rs. 19,513 against Rs. 68,984 in 1881-82, and Rs. 24,237 in 1880-81.

The following statement shows the value for each of the past three years of the piece-goods exported through each registering post, district by district.

26. *Saltpetre.*—The condition of the saltpetre trade is far from being satisfactory, the total quantity imported from Nepal being only 5,985 maunds against 12,911 maunds in 1881-82, and 14,001 maunds in 1880-81. The principal districts which imported this supply are Mozufferpore (3,279 maunds), Durbhunga (1,450 maunds), and Chumparun (1,256 maunds).

27. *Oilseeds.*—The total quantity of linseed and mustard-seed entering the British territory from Nepal during the past three years was as follows.—

	1880 81	1881 82	1882 83
	Mds	Mds	Mds
Linseed ...	1,87,036	81 786	1,50,223
Mustard-seed ...	1,13,251	81,373	71,150

There has been a satisfactory recovery in the trade in linseed, the total increase amounting to 68,437 maunds as compared with 1881-82.

The principal routes of traffic through which the largest quantity of oilseeds was imported during the past three years, are shown below :—

28. *Silk, manufactured.*—The demand for manufactured silk goods in the Nepal market has been very active during the past year. The total value of these goods sent to Nepal was Rs. 1,12,867, against Rs. 52,555 in 1881-82, and Rs 55,948 in 1880-81.

29. *Sugar.*—The total quantity of refined and unrefined sugar sent to Nepal during the past three years shows but little fluctuation in this trade. The registered figures are as follows :—

	1880 81 Mds.	1881-82. Mds.	1882-83. Mds.
Sugar, refined	4,807	5,314	4,975
Do., unrefined .	21,338	20,429	20,869

30. *Tobacco.*— Tobacco is both imported into, and exported from, Nepal. The total traffic amounted during the past year to 29,598 maunds, against 29,787 maunds in 1881-82, and 24,394 maunds in 1880-81. The increase in the export trade was 15·75 and 42·50 per cent as compared with the two previous years, but in the imports from Nepal, the figures show a decrease of 3,405 maunds on the trade of 1881-82, and of 1,843 maunds on that of 1880-81.

31. *Timber.*—The total quantity of timber imported from Nepal was 3,88,740 maunds, against 2,80,982 maunds in 1881-82, and 4,63,817 maunds in 1880-81. The different routes through which these supplies were carried are specified :—

Total ...	4,63,817	2,80,982	3,88,740

It will be seen that the great bulk of the timber trade was registered in the Chumparun district.

32. *Wool, manufactured.*—The trade under this head has greatly improved, the total value of manufactured woollen goods sent to Nepal being Rs. 3,36,424 against Rs. 2,16,901 in 1881-82 and Rs. 3,07,577 in 1880-81.

TRADE BETWEEN BENGAL AND SIKKIM.

33. The trade of Bengal with Sikkim and Thibet is registered at the frontier stations of Pheydong and Rungeet in the Darjeeling district. It may generally be stated that at present the greater part of the Pheydong trade goes to, and comes from, Thibet, while practically the whole of the Rungeet trade belongs to Sikkim proper. This trade is of increasing importance. Upon the opening of the Trans-Himalayan Railway and the completion of the road to the Jeylep Pass, it was reasonably expected that a considerable impetus would be given to the trade with Thibet; but the returns of traffic registration for the year 1881-82 did not show that this had been the case. The Lieutenant-Governor therefore directed the Deputy Commissioner of Darjeeling to employ such means as may be available to him to ascertain the cause of the want of elasticity which was indicated by the figures for that year, and submit a report of the result of his enquiries for the information of Government. In reply to this communication, the Deputy Commissioner writes:—

"I may remark at the outset that it takes a long time for any change in the channels of trade to make itself felt in Thibet. Only one journey is done each way by traders in the year. These men only found the railway open through to Darjeeling when they came in early in the cold weather of 1881-82. Any information they took back about this would only take effect in the present cold weather, and at a recent inspection of the traffic stations at Rungeet and Pheydong, I saw indications of the further development of the trade. The road to the Jeylep Pass has been open some years. The only recent alteration in the route has been the opening of the Teesta bridge, and information of this would only have gone into Thibet last cold weather.

"Much depends on the treatment of the traders at the Passes Two cold weathers ago, the Thibetans were very obstructive and rapacious Probably this checked trade last year, but the traders were better treated, and those who left houses and property behind them in Thibet were allowed to pass freely. This year even those without means of their own have met with no discouragement, and as I have said, trade is improving.

"I dare say, inattention to orders on behalf of the registering clerks may have affected the returns in the past, but I am doing my best to rouse them, and have, as reported above, only recently thoroughly inspected the stations. Both clerks have been warned, and one temporarily suspended, and I trust that no indolence on their part will hide the improvement which, I believe, to have really set in in the Thibetan trade."

The Lieutenant-Governor believes that a very important trade with Thibet can be opened up through Sikkim, if obstructions are removed and facilities offered. Special attention has been paid to this subject, and the Lieutenant-Governor's views will shortly be laid before the Government of India in a separate communication

34. The following statement shows the total value of the trade between Bengal and Sikkim registered during the past three years:—

Year.	Imports from Sikkim	Exports to Sikkim.	Total.
	Rs	Rs	Rs
1880-81	1,67,960	80,898	2,18,858
1881-82	1,67,533	86,011	2,53,544
1882-83	2,00,148	1,16,294	3,16,442

35. It will be seen that the increase in the total trade amounted in value to Rs. 62,898 compared with 1881-82, and to Rs. 67,581 compared with 1880-81. The import trade showed an advance of over 19 per cent on the figures of the two previous years, and the export trade an advance of 35·21 per cent on the trade of 1881-82, and of 43·75 per cent. on that of 1880-81. The remarks offered by the Deputy Commissioner of Darjeeling in his annual administration report are as follows:—

"The Rungeet station, which registers the Sikkim traffic, shows the import of Indian corn to have doubled. As regards the supply of poultry and other life-stock, however, the returns show that Sikkim has done less business than last year. At Pheydong, where the Thibetan and Sikkim traffic is registered, the imports of sheep have, according to the returns, more than doubled. The supply was, I know, very free; but I fear the figures mean partly that the mohurir was lax in his work in 1881-82, for there is an increase under blankets and other

piece-goods, which is in excess of even the marked revival of the Thibetan trade, which has, I know, taken place. The imports of untaxed salt are gradually decreasing. The supply of ponies from Thibet and Bhutan has been quite up to the average.

"The exports at these registering stations consist chiefly of piece-goods and tobacco, to which at Nuksarbaree must be added salt. The exports of piece-goods show a very large increase chiefly in the direction of Nepal."

36. The total value of the principal articles comprising the import trade during the past three years has been :—

	Imports from Sikkim.		
	1880-81.	1881-82.	1882-83.
	Rs.	Rs.	Rs.
Horses	28,250	48,225	49,725
Cattle	12,475	6,950	7,925
Sheep and goats	9,964	15,678	23,999
Lime and limestone	4,938	3,380	2,015
Vegetables and other kinds of fruits ...	6,590	6,486	4,934
Miscellaneous rain crops	20,664	23,047	33,676
Brass and copper	11,040	17,700	8,520
Ghee	2,304	3,552	4,089
Provisions other than ghee	26,830	1,220	680
Salt	6,775	7,773	3,411
Tea, foreign	.....	3,520	2,310
Wool, raw	80	.....	2,520
Wool, manufactured	16,536	17,294	35,504
All other articles of merchandise, manufactured	5,096	3,283	3,945

37. The value of ponies imported from Sikkim rose from Rs. 28,250 in 1880-81 to Rs. 48,225 in 1881-82, and Rs. 49,725 in 1882-83. There was a slight increase in the value of cattle imported, but the figures are still below those of 1880-81 by Rs. 4,550. The increase under sheep and goats amounted to as much as 53·07 and 140·86 per cent as compared with the two previous years. This trade is nearly all registered as Phoydong, and the increase from 3,359 animals in 1880-81 to 5,900 in 1881-82 and 9,176 in 1882-83 is very satisfactory. The value of miscellaneous rain crops, chiefly Indian corn, is Rs. 10,629 in excess of the totals of 1881-82, and Rs. 13,012 in advance of those of 1880-81. The trade in ghee is steadily increasing. The imports of manufactured woollen goods (chiefly blankets) show a large advance, amounting to more than double the value of the supply registered during the preceding two years. One of the most satisfactory features in the trade of the year is the beginning of a steady import of wool. There is an unlimited supply of this staple of excellent quality within a few days' journey from Darjeeling, and there can be no doubt that if the channel were opened there would be a free flow of trade. It is interesting to observe that in the first four months of the current year the imports of wool have been double those of the whole of the previous year. The salt shown above is the untaxed foreign salt, of which an account has already been given in this report. The figures, however, show a satisfactory decrease, amounting to 56·12 per cent as compared with 1881-82, and to 49·65 per cent as compared with 1880-81; and the facilities for transport afforded by the opening of the railway will doubtless result in a still further diminution in this trade. The value of foreign tea, which is the brick tea of Thibet, shows a decrease of Rs. 1,210 on the figures of the previous year. In the last report, a hope was expressed that the tea-planters of Darjeeling and the Dooars will make some effort to displace the brick tea by preparing coarse tea for the Thibetan market, and a pamphlet written by a gentlemen of special experience in this matter has already been widely circulated to disseminate information on the subject.

38. The principal articles exported to Sikkim during the past three years were :—

Chief articles of trade.	Exports to Sikkim.		
	1880-81.	1881-82.	1882-83.
	Rs.	Rs.	Rs.
Cattle	11,575	6,650	1,275
Piece goods (European)	23,744	29,121	45,702
Ditto (Indian)	2,592	382	177
Indigo	11,750	11,330	28,520
Rice	3,432	7,313	2,329
Brass and copper	7,680	5,360	8,120
Paints and colours	1,400	10,920	400
Salt	1,194	760	1,143
Tobacco	8,016	4,609	9,666

39. It will be seen that the trade in European piece-goods has largely expanded, the value of exports amounting to Rs. 45,702 against Rs. 29,121 in 1881-82 and Rs. 23,744 in 1880-81. It has been ascertained that the use of cotton fabrics is becoming popular in Thibet, and that there is rapidly increasing demand for piece-goods of all kinds. The indigo exports show an advance of 151·72and 142·72 per cent on the trade of the preceding two years respectively The supply of brass and copper and their manufactures sent to Sikkim has also been large, the increase being Rs. 2,760 in excess of the transactions of the previous year. The rise in the tobacco trade is 109·72 per cent as compared with 1881-82, and 20·58 per cent as compared with 1880-81. The large decrease shown under paints and colours is owing to the return of the trade to its normal state. It is important to observe that under the three heads of piece-goods, indigo, and tobacco the exports have nearly doubled in two years.

TRADE BETWEEN BENGAL AND BHUTAN.

40. The different stations for the registration of the trade between Bengal and Bhutan are Ambari, Buxa, and Huntoopara, all in the Julpigoree district. The total value of the traffic registered at these posts during the past year, as compared with the totals of the two previous years, was as follows.—

Years.	Imports from Bhutan	Exports to Bhutan	Total
	Rs	Rs	Rs
1880-81	2,26 622	1 96,947	1 23,569
1881-82 .	1 23,048	1 05 168	2 28 216
1882-83	1,11,442	86 693	1,98,135

41. The Lieutenant-Governor is unable to accept the figures of the two years previous to 1882-83 as being finally correct, for the result of the enquiries made through the Deputy Commissioner of Julpigoree, under the orders of the Government of India, regarding the shell-lac trade registered in those years, showed that the figures of this trade submitted to Government since 1878-79 were for the most part fabricated by the registering mohurirs at Buxa and Ambari stations. From September 1881, however, there has been a new traffic mohurir at Buxa, who is said to be intelligent and careful, and it is owing to him that the inaccuracy of the two previous years' returns has been brought to light. The mohurir at Ambari has also been dismissed from the service of Government, and it is hoped that some improvement may be effected in the registration of this traffic.
